the Republican County Convention which assembles in this place tomorrow. We trust that harmony and peace will prevail; that selfish motives will actuate no delegate, and that the ticket shall be composed of such men as the people of the county will feel a just pride in voting for. Such a ticket will sweep the county. Individuals selected for the respective ple may repose the most implicit confidence, knowing their trust will not be betrayed. Men should be named who are fitted to discharge official positions with credit not only to themselves but to the county. Especial care should be taken in the selection of the Legislative ticket. Upon this depends much of the future welfare and prosperity of the town of Reno and the entire county. There is lots of hard work to be done in Carson this Winter, and persistency and energy will be greatly needed. From what we know of the men who have been elected delegates for tomorrow's convention we believe they know what is right, and will do It. We have much faith in their intelligence and devotion to the county's interests. Vote for the best men, and

name the winning ticket, gentlemen.

Of the foreign chias which circulate in China the Spanish dollar performs the principal part. To serve the purpose of change these are cut into very exact portions, but afterwards weighed, merchants carrying with them scales called dotchin. The value of the tael is generally computed according to the price paid per ounce for Spanish dollars in London, though formerly it was reckoned at 6s. 8d. sterling in the books of the East India Company. Silver ingots are used as money and weigh from half a tael to 100 taels, their value being determined by their weight. These ingots are of the best of silver, that is about 94 touch (containing six parts alloy in the 100). Gold is considered as merchandise and not as money, and is sold in regular ingots of a determined weight, which the English call shoes of gold. The larthe establishment of a Chinese Mint, and knowing the decided preference ble that the Empire could be induced to change its money standard, and there would be a constant large demand upon the surplus stock held by [other countries.

[Virginia Enterprise of Thursday.]

We have received a private note from our candidate for Congress, in which he says that as soon as some to be made. imperative professional business is disposed of he means to make a thor-ough canvass of the State. This is all that is necessary for him to do. Mr. Wren is in some respects such a man as Delos Ashley was—the long-er he is known, the more he is liked and trusted. He is looked upon by his friends as one whose counsel is slways correct, and whose judgment ! is never at fault. He is one of the men who is sure to gain votes every day until election. The suggestion which a contemporary makes, that the Covgressional candidates stump the State together, we think is a good one, provided the gentlemen who son City Wednesday. are rival candidates can agree upon a programme. Could Colonel Ellis robe himself in the mantle of universal brotherly love (barring the Chi-nese) and Wren don the bloody shirt, there is no reason why the campaign should not be interesting as well as instructing.
